

**EXECUTIVE SUMMARY
MSCP PROGRAM
ASSESSMENT
2010-2011 SCHOOL YEAR
Robert Santee
9/15/11**

There were 163 MSCP lecture courses taught during the 2010-2011 school year with an average class size 11.7. Total 2010-2011 credit hours (5751) showed an increase of 471 credit hours (\$575 per credit hour) over projected goal (5280). This translates as additional revenue of \$270,825 for the 2010-2011 school year. Estimated total revenue for MSCP 2010-2011 is \$3,306, 825. 71 students walked in graduation ceremonies in mid-June 2011. Of these, there were 11 incompletes at end of spring term, 4 completed in Jul/Aug 2011, 7 remain incomplete but expect to be complete by the end of September 2011.

Assessment for the MSCP program occurs at the end of the spring term. The core comprehensive exam consists of 125 items. The ethics scale remained the highest overall scale for both 2009-2010 and 2010-2011 school years. The Cross-cultural Counseling scale and the Health Counseling (stress management) scale were the second and third highest scales for both school years. Reliability for the comprehensive exam remained consistent between the 2009-2010 (.86) and 2010-2011(.88).

See the separate reports for an analysis of each of the emphasis exams.

* Rounding by the Scantron program is the source for any discrepancy between average points and average % on the scale scores.

The second major assessment tool is the site supervisors' evaluation of the students. This occurs while the students are at a clinical site. The data represents student performance across three terms. The students are evaluated by the following form at the end of Practicum, Internship A and Internship B. The results are a combination of students from community, marriage and family, and school counseling. The 2009- 2010 and 2010- 2011 supervisor's evaluations are quite consistent across all items.

**2011 Supervisor's Evaluation of Practicum Student or Student Intern
Practicum (Fall) / Internship A (Winter) / Internship B (Spring)**

Supervisors were asked to respond to the following questions using this scale:

- Not Applicable or not enough information to form a judgment (explain below)
- 1. Far Below Expectations-needs much improvement, a concern (explain below) = 1
- 2. Below Expectations-needs some improvement to meet standards = 2
- 3. Acceptable-meets standards at average level for interns = 3
- 4. Above Expectations-performs above average level for interns = 4
- 5. Far Above Expectations-a definite strength, performs well beyond average levels for interns = 5

The third major area of assessment is the student evaluation of the program. This is filled out by students in the Internship B course during the Spring term which is the last term for their program. The results from the survey are analyzed in regard to program improvement. Item 5 (evaluation in community) shows a continual drop in the strongly agree/agree category from 2008-2009 (90.77 %), 2009-2010 (85.19%) and 2010-2011(76.56%). This item will be addressed. Item 20 (treatment planning) shows a drop in the strongly agree/agree category from 2009-2010 (86.42%) to 2010-2011 (79.69%). Items 46 (national standards) shows an improvement in the strongly agree/agree category of 10% from 2009- 2010 (75.31%) to 2010-2011 (85.94%). Item 47 (advising) shows an improvement in the strongly agree/agree category of 4% from 2009-2010 (74.07%) to 2010-2011(78.13%). A separate, more specific advising survey is administered at the same time and is used to determine specific problematic advising issues. Item 48 (recommend the MSCP program) shows an improvement in the strongly agree/agree category of 6% from the 2009-2010 (83.95%) to 2010-2011(90.63%) school year.
