

Integrative and Marianist Educational Values Papers
For Senior Seminar in Psychology (PSY 490) Capstone Course

As part of the comprehensive assessment of student cumulative performance in the Psychology program, students are required to write two papers: an Integrative paper and a Marianist Educational Values paper. Due to the fact that there have been four instructors for this course over the last six years, three of which have left CUH, developing a rubric has been problematic. We now, however, have a rubric for each paper. Inter-rater reliability will be determined this summer (2009). The rubrics are listed as separate documents.
