

Program Outcomes for Post-Bac in Secondary Education

The successful post-baccalaureate candidate in the secondary licensure program should be able to draw upon his or her bachelor's degree and life experience to enhance the ability to plan, teach, assess, reflect, and adapt. Therefore, the successful candidate:

(PLAN) designs meaningful learning experiences that incorporate knowledge of content, students, learner outcomes, pedagogy, and assessment for grades 7 – 12 in the candidate's subject area.

(TEACH) has a competent grasp of content knowledge in his/her subject area, employs appropriate pedagogical practices, and utilizes resources to facilitate the learning process for students in grades 7 – 12.

(ASSESS) applies a variety of diagnostic, formative and/or summative assessments to evaluate and support developmentally appropriate progress of the grade 7 – 12 learner.

(REFLECT) draws upon his/her bachelor's degree and life experience while engaging in the process of continual and thoughtful reflection on his/her grade 7 – 12 teaching practices.

(ADAPT) draws upon his/her bachelor's degree and life experience while evaluating elements of change in the grade 7 – 12 classroom and the wider world, and actively brings this awareness to work with students, faculty, and other members of the community.

The following page provides the sequence of courses offered in the post-baccalaureate secondary licensure program, with a summary of the primary program outcomes addressed for each course, and the "signature assignment" to assess that the student learning outcomes for each course have been met.

The remainder of the document details each of the five program outcomes, followed by specific courses where those program outcomes are predominantly addressed, student learning outcomes for each of those courses, sources of evidence to assess that student learning outcomes have been met, and corresponding Hawaii Teacher Performance Standards (HTPS).
